

Grant Life Cycle

New Researcher-facing Portal

Brief History - New Faculty Outreach

New Faculty Outreach events since 2013.

Seven central campus offices under the VCR.

Held in the Faculty Club at noon with food.

Used a speed-networking approach -- seven minutes of interactive face time with each office to:

- learn its services,
- ask questions, and
- make personal connections.

Proved an effective outreach to new faculty.

Who?

Authors/ Designers / Participating Offices

- Sponsored Projects Office
- Office for the Protection of Human Subjects
- Office for Animal Care and Use
- Berkeley Research Development Office
- Research Conflict of Interest
- Industry Alliances Office
- Office of Technology Licensing.

Over time, we expanded...

Audience

- Faculty, New in the last 3 years
- Researchers (staff researchers)

Researcher-facing Website

Question: *How do we support faculty who arrive in an off-cycle when we're not holding a New Faculty Outreach event?*

In our planning over the years, we discussed a website.

- Keep materials there for new faculty.
- But why not build it for all faculty and researchers?

During our COVID downtime this year, we developed a researcher-facing site for ***all researchers***.

So the same people got to work, thinking of new faculty, and thinking of you.

It's a cross-functional portal on the entire Grant Life Cycle.

Berkeley's new Grant Life Cycle Portal

Grant Life Cycle

The Grant Life Cycle provides an overview of the research proposal submission and award administration process, guiding you through campus resources, policies, and procedures, as well as finding funding and applying for and administering grants.

<https://vcresearch.berkeley.edu/grant-life-cycle/overview>

Design Objectives

- Provide a cross-functional view, across offices and silos.
- Provide "how do I" guidance. From ***PI's point of view***.
- Provide snippets, with links to authoritative sites with guidance.
- Working across the entire life cycle, from start to finish.
- Integrate Compliance across the stages.
- Integrate contracts and grants with gifts, business contracts, licenses, and more.

Where are we now:

Developing since Summer, 2020.

Seeking help advertising and feedback/updates.

Our Ask: Please [give it a whirl](#), and give us your feedback!
